

# IMPORTANT GUIDELINES:

1. Retain **ALL ORIGINAL LAYERS** and document setup. Place artwork on layer labeled **"PANEL LAYER"**. Placed images must be at least **150 dpi** at actual size
2. Go to View pop down to Outline to see the pre-existing panels for bleed.
3. **Outline all Text.**
4. Save as Illustrator **CS2** or lower **.ai** or **.eps**  
Include all image files.

Art under yellow area will be under the glue flaps when assembled
